

PH Onboarding Process Guide *(Talent Services)*

Overview

This guide provides a step-by-step overview for initiating and managing the onboarding process within **RecruitIQ**.

Talent Acquisition will move the candidate to **"Start Offer"** so the offer letter can be created.

The onboarding process in RecruitIQ will be initiated after the onboarding discussion with the candidate has been completed.

[Link: Onboarding simplified Process Map](#)

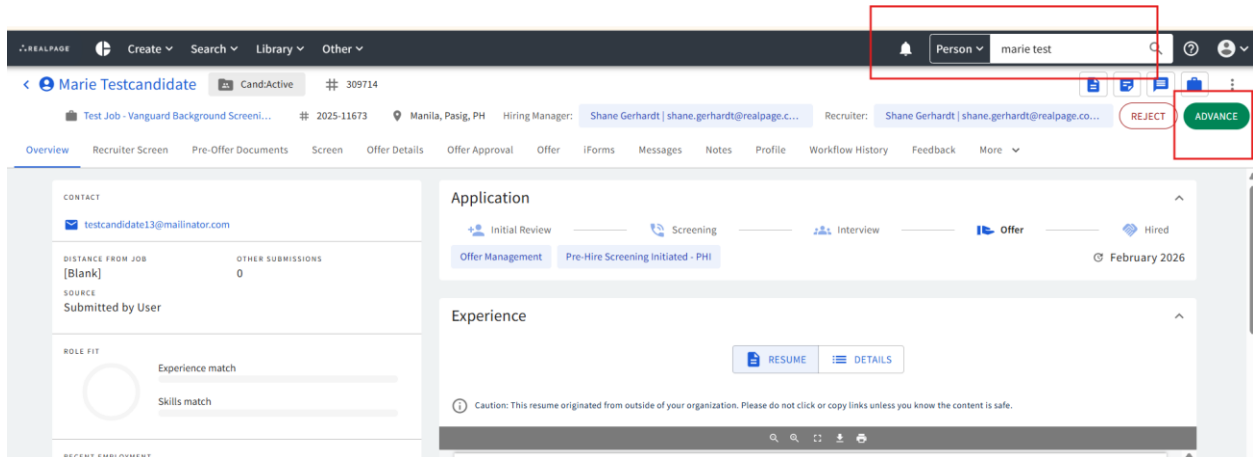

Step-by-Step Workflow:

1. The TA team messages the OB team to request an onboarding discussion. The request is usually submitted through the GC. The TA team forwards the meeting link to the candidate. Conduct the discussion and send the pre-employment reminder email to the candidate. [Sample Email - PRE-EMPLOYMENT REQUIREMENTS RealPage Inc..msg](#)
2. Endorse the candidate for PEME via email using the appropriate branch contact details provided below. [Sample Email - PEME Endorsement](#)
3. Process Candidate in RecruitIQ.

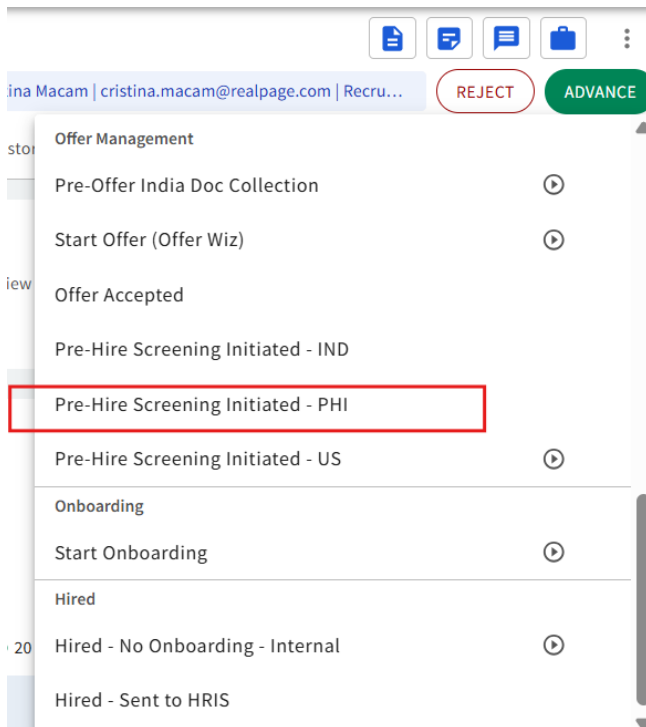

Move the candidate to **"Pre-Hire Screening PH"** so the candidate receives the background-check form link through AppTrac. Confirm that the package type is entered in the job details. If it is missing, contact the TA team for an update. Then move the candidate to **"Start Onboarding"** so the candidate receives the ICIMS link to upload requirements and acknowledge the iforms.

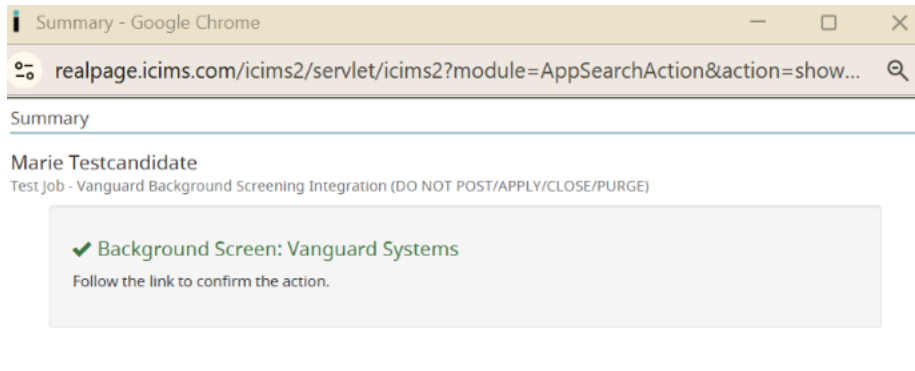

RecruitIQ navigation:

- Select the candidate's name to begin the onboarding process.

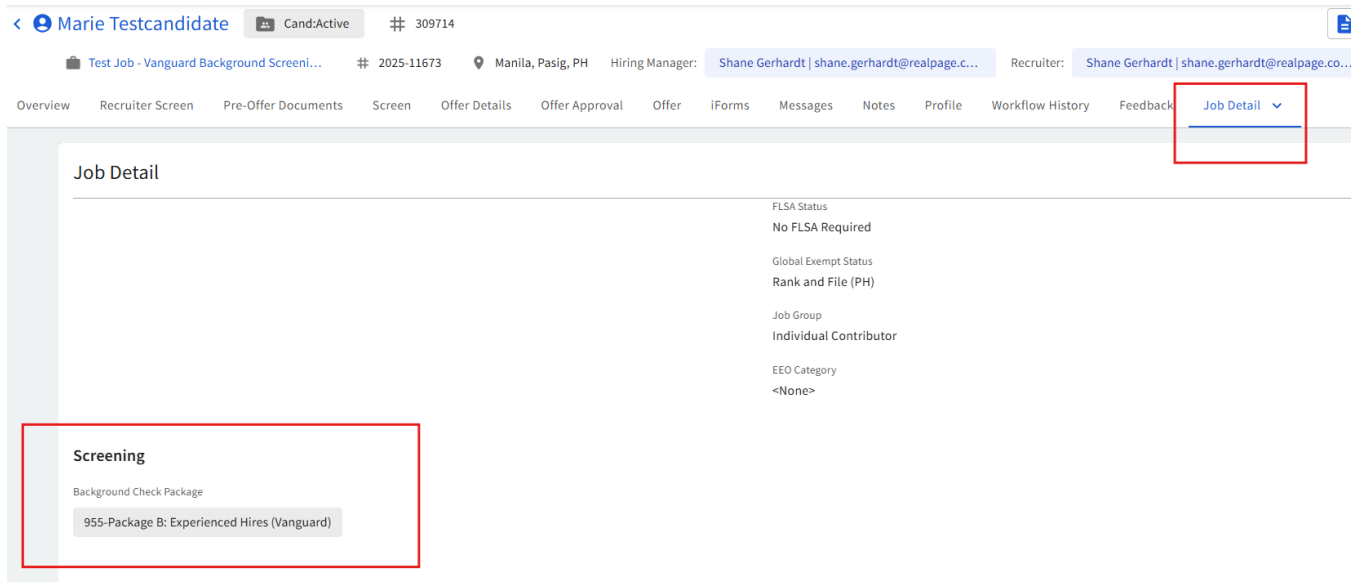

- Click Advance, then choose “Pre-hire screening PHI”.

Note: Before moving the candidate to **Pre-hire screening**, confirm that the package type is entered in the job details. If it is missing, contact the TA team for an update.

- Click Advance again, then choose **“Start Onboarding”** - This will give the candidate access to the iCIMS onboarding portal, where they can complete their required onboarding tasks, such as

uploading their government numbers and acknowledging required forms, including the Code of Conduct.

- A pop-up window will appear prompting you to complete the following steps:
 - **New Hire:**
 - In the Notifications section, always select **“Do not Send Rejection Notice”**
 - In the Actions section, verify that all options (checked by default) are correct:
 - ✓ Move Job Folder to **“Closed”** under the Action section.
 - ✓ Move candidate to Folder **“Current Employee”**
 - ✓ Ensure that the **“Start Date”** matches the **“Internal Req Job Start Date”**. The Start Date is used to determine **task due dates and system integrations**.
 - Click **OK** to continue.

	41 - PHI (Manila) - Preboard Packet

Assign Onboard Portal
Onboarding

- On the Add Task process, the required iForms will be automatically selected based on the submitted New Hire Category/Onboarding Packet .
- When using the "Add Task" process, you still have the opportunity to review and confirm the iForms that will be sent to the candidate based on the selected New Hire Category.
- From this section, you can:
 - ✓ **Add** additional iForms if needed.
 - ✓ **Delete** any iForms that were included by default but should not be sent to the candidate.

This step ensures that only the appropriate onboarding forms are assigned, helping maintain accuracy and relevance in the onboarding process.

Note: Please ensure that the **PH PII Form** has been sent to the candidate as part of the onboarding requirements.

➤ **Email**

- Click **Send** to email the Onboard **Welcome Letter** to the candidate. This provides access to the **New Hire Portal** where they can complete onboarding tasks.

Preview Send Cancel Send

- Once the welcome email has been sent to the candidate, you will be automatically routed to the **Employee tab**. In this section, please ensure the following fields are accurately completed:
 - Device Choice - Check the **CM file** to confirm the asset assigned by Talent Acquisition (TA).

Note: The Device Choice may automatically change once the candidate receives the iCIMS link. During the completion of their information, candidates are required to select their preferred device; however, this option is **only applicable to US employees**. Since the page is designed for all regions, this may result in changes to the Device Choice field.

Before moving the candidate to “Hired,” always double-check the Employee tab and Device Choice to ensure the information is accurate.

See the sample page below showing the Device Choice field that candidates see when they receive and complete the iCIMS link:

The screenshot shows a form for entering candidate information. The fields include: Type (Home), Address (redacted), Address 2, City (Dallas), Zip/Postal Code (redacted), Country (United States), State/Province (Texas), and County. A red box highlights the 'Device Choice' dropdown menu, which is currently set to 'PC'. There is a 'Save & Continue' button at the bottom right and a link 'Add More (Address)'.

- Orientation Start Date
- Earnings Group
- Pay Group
- Job Group – This can be found in the Job Details section.

The screenshot shows the RealPage Manager interface for a candidate named Marie Testcandidate. The top navigation bar includes tabs for Overview, Recruiter Screen, Pre-Offer Documents, Screen, Offer Details, Offer Approval, Offer, iForms, Messages, Notes, Profile, Workflow History, Feedback, and Job Detail (highlighted with a red box). The Job Detail section shows the following information: FLSA Status (No FLSA Required), Global Exempt Status, Rank and File (PH), Job Group (Individual Contributor, highlighted with a red box), and EEO Category (<None>).

- Deduction/Benefit Group
- Employee Marital Status

Then click “Save”

Note: If you have already sent the **Onboarding Link/Welcome Letter** to the candidate and they report that they did not receive it, **do not advance the candidate to “Start Onboarding”** again, as this may generate a duplicate Onboarding Packet.

Instead:

- ✓ **Check the Message tab** to confirm whether the Welcome Letter email was already sent.
- ✓ If the Welcome Letter has already been sent and **double-check the candidate’s email address** in the **Contact** section and ensure that it is correct.
- ✓ **Resend the Welcome Letter email** if necessary.

Important: Do not move the candidate back to “**Start Onboarding**” simply because they did not receive the email, as this may create a duplicate onboarding packet.

Message Tab:

The screenshot shows the iCIMS interface with the 'Messages' tab selected in the top navigation bar. The main content area displays an email template titled "Next Steps: New Hire Onboarding" from Trixia Marie Marentes to Jerry May Cabero. The email body includes a welcome message, a link to the onboarding portal (<https://newhire-realpagepms.icims.com/>), and login information. A right-hand sidebar titled "Text Messages" shows a warning: "No SMS License" and a message input field.

To resend the Welcome Letter:

- Navigate to the **Onboard Workflow**.
- Select the appropriate **New Hire Category**.
- Click **Email**.
- Select **RP: Onboarding and Welcome Letter Template**.
- Click **Send Email**.

4. Monitor Onboarding Progress

- Select Onboard Status to view the candidate's onboarding progress.
- This section will show which tasks are still pending and which have already been completed.

Note: If the candidate you launched does not appear, you can search for them using the Requisition ID in the Search tab.

- To locate the candidate:
 - Search the Requisition.
 - Click the Candidates tab.
 - Filter by the category "Start Onboarding" to quickly locate the candidate.
 - Click Onboard Status to view the progress - You'll see which tasks are still pending and which are already completed.

- Gray - Task not started

Note: If the **New Hire** category was selected incorrectly during the initial setup, additional iForms can be manually assigned from the candidate's **Person Profile** under the **Onboard Status** tab.

- View/Download the uploaded requirement
 - Go to the **Employee** tab > **Navigate to PHI Onboard Data**
 - When reviewing government numbers, use the sample below as a reference to verify whether the submitted government numbers are valid.

Sample of Valid government numbers

Notes: Even if the candidate hasn't completed all the requirements yet, you can still view any documents they've already uploaded on the OB portal.

If a candidate uploads an incorrect document, you may delete the task from the "Onboard Status" section and re-add the task. This will prompt the candidate to resubmit the correct document via OB portal.

5. Upload the 2X2 photo to the REWS' folder. **Link:** [NEW HIRES 2X2 folder](#)
6. Monitor completion of the PEME and the background-investigation results sent by the vendor via email. Update the BI Tracker: [BI tracker](#) for the BI results and update the CM for the PEME results.

BI check report pw: rpi2026

PEME report pw: realpage143

Note: If the PEME results indicate any medical findings or the Background Investigation (BI) report identifies any discrepancies, notify the employee and coordinate with the vendor for the Fit-to-Work (FTW) assessment or the necessary verification and resolution. See sample emails for reference:

PEME:

[Sample Email – PEME Findings](#)

[Sample Email to Myhealth– Request to Reclassify the PEME results](#)

[Sample Email to RP Clinic – Request to Validate Medcert](#)

BI:

[Sample Email - BI Findings](#)

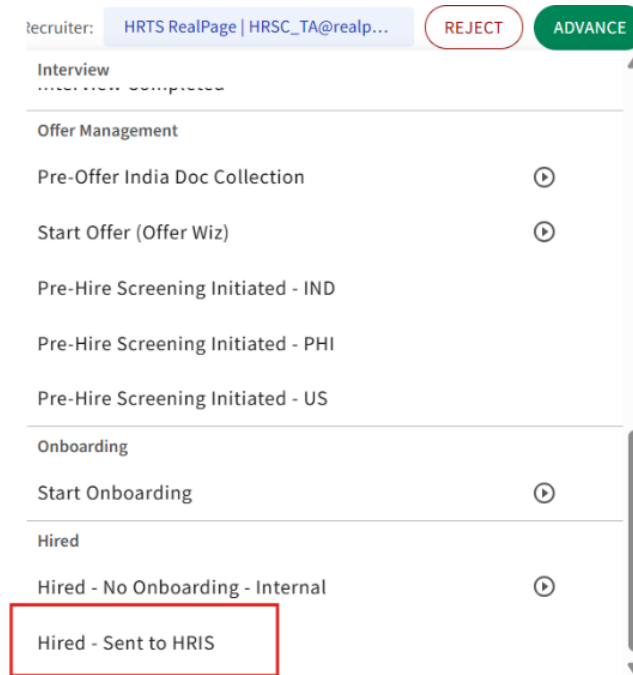

[Sample Email to Vanguard – Request to Rectify Discrepancy in the BI Report](#)

7. Send the pre-employment completion report to the TA team every Monday and Wednesday for candidates scheduled to start the following week.
[Sample Email – Onboarding completion Report](#)

8. Move the candidate to “**Hired – Sent to HRIS**” in RecruitIQ
 - **ONLY** advance to “**HIRED-SENT TO HRIS**” after the onboarding paperwork has been completed, offer has been accepted, sign-off has been received from TA Team.
 - Once both steps are confirmed, finalize the hire by:
 - Clicking **Advance** > “**Hired – Sent to HRIS.**” This action will automatically create the new hire’s UKG profile in the system.

Note:

- Always check the **Employee tab and PII form** before moving the candidate to “**Hired-Sent to HRIS**” to ensure that all required information has been entered and is accurate. The information in this tab will be **synced to UKG** once the candidate is moved to “**Hired – Sent to HRIS.**”
- If the **start date has changed** and the candidate has already been moved to Hired-Sent to HRIS, notify the **HRIS team** via email to update the start date in UKG.
- If onboarding is still **in progress**, **Talent Services** should update the start date in “Employee Tab”.

9. Send the **new-hire list** to the Benefits team every Friday for eligible employees who are scheduled to start the following week, so they can be included in the next payout.
[Sample email - EMR endorsement](#)
10. On the New hire’s first day, send the Security Bank enrollment information to Payroll via email.
[Sample Email - SB endorsement](#)

- 11. Create an ND Allowance Contract** for employees who are eligible to receive a **₱2,500 ND Allowance**. Please use the attached template as the reference and retain the existing format.

Approval and signing sequence:

- The contract should first be reviewed and signed by the TA Partner.
- It should then be reviewed and signed by Ms. Ivy.
- Once both approvals/signatures are completed, the contract should be sent to the employee for their review and signature.

Additional Information:

1. All new hires are also required to complete and be fully cleared from the **BACKGROUND INVESTIGATION (BI)** prior to start date. Coverage of this mandatory process includes:

Employment Verification (Last 2 Employment)

1. On the **Employment Check**, only the most recent 2 previous employers will be checked / verified along with the Supervisor Performance Feedback (for the last 2 immediate supervisor of the new hire).

Educational / Academic Verification

2. If the **Academic Verification** could no longer be completed due to cases (School no longer exists, School did not forward their records to CHED or DePED, Unpaid Balance, Records Archive and Force Majeure), the Background Investigation vendor needs to notify the Recruiter seeking to secure an email approval to close off the case. The report will be tagged as "Unverified" and will be the final status of the Background Check.

- **Criminal Check**
- **Credit History Check**
- **Character Reference Check**

Additional checks may be required for specific and/or management positions and above upon request by the Hiring Manager.

Only new hires with a complete and cleared Background Check result can be onboarded. Depending on the reason for not being able to complete the check, the Recruiter may opt to secure clearance to onboard from the Hiring Manager by presenting the possible risk/s if the new hire is allowed to start with his/her employment with a pending Background Check result.

For Background Checks that resulted in negative findings, the job offer may be rescinded. Some of the red flags that may result in the rescinding of the offer may include, but not limited to, a criminal history, falsifying of documents (i.e. TOR or COE), and unfavorable feedback from Character References.

- **Package A**

– Educational Background and 3Cs (Criminal Records Check, Credit Records Check, and Civil Litigation Check)

➤ Package B

– Employment History, Professional References, and 3Cs (Criminal Records Check, Credit Records Check, and Civil Litigation Check)

➤ Package C

– Educational Background, Employment History, Professional References, and 3Cs (Criminal Records Check, Credit Records Check, and Civil Litigation Check)

A PRE-EMPLOYMENT MEDICAL EXAM (PEME) is also required where new hires will be subjected to the following procedure as part of this check:

- Physical Exam
- Chest X-Ray
- CBC (Complete Blood Count) / Blood Test

Results of this procedure may be classified into the following categories which also determines the employability of the new hire:

Classification	Description
CLASS A <i>(Fit To Work)</i>	✓ New Hires is in good health ✓ Absence of any physical defect or disease that may adversely affect his efficiency
CLASS B <i>(Fit to Work with Minor Findings)</i>	✓ New Hire is physically fit but with minor ailments / conditions which are curable within a short period of time and will not adversely affect the worker's efficiency
CLASS C (Employable but owing to certain impairments or conditions)	✓ Employable but owing to certain impairments or conditions. ✓ Requires special placement or limited duty in a specified or selected assignment. ✓ Requiring follow-up treatment/periodic evaluation

CLASS D (Not Fit to Work)	× Unemployable / Health Condition either infectious or may impact the new hire's ability to perform the job
PENDING	× Equivocal or incomplete cases - Not employable until fulfilled and converted into a Class A or B

PEME Results:
