

US Onboarding Process Guide (Talent Services)

Overview

This guide outlines the step-by-step process for initiating and managing onboarding in the system once a candidate is ready to be hired.

Talent Acquisition will move candidates to **"Pre-Hire Screening Initiated-US"** once the candidate has accepted their offer letter.

Talent Services is responsible for processing the onboarding of all candidates listed under the **"Pre-Hire Screening Initiated-US"** folder.

Step-by-Step Process

Recruiters will notify Talent Services Team via MS Teams Direct Message or through the Group Chat) for Internal Candidates to be processed.

Note: Onboarding Team to monitor the Pre-hire screening folder as well as the US onboarding GC.

SLA: Talent Services will process the onboarding within **three (3) hours** upon receipt of the candidate endorsement from the TA team.

1. Locating the Candidate (Two Ways)

1A.

- On iCIMS Landing Page, navigate to the **"Pre-Hire Screening Initiated-US"** folder

The screenshot displays the iCIMS system interface. On the left, the 'My Jobs' section shows a list of job requisitions. A red arrow points from the 'Pre-Hire Screening Initiated - US' folder in the 'Talent Services - Offers and Onboarding - US' section to the 'Pre-Hire Screening Initiated - US' folder in the 'Jobs Pending Approval' section. The 'Pre-Hire Screening Initiated - US' folder is highlighted with a red box. The interface also shows various other sections like 'Jobs by Country and BU', 'TA Leaders - Approved Jobs', 'Recruiters - Approved Jobs', and 'New Hires'.

- Click the 'Dropdown' icon near the Business Unit to search for Candidate's Requisition ID or Name

Recruiting Workflow Search: TS-Pre Hire Screen Initiated-US

Search Form | Take Action | Email | Share | iForms | New Task | Submit to Workflow | Offer Approval | Manager Approval | Edit Folder | Bulk Print Documents | Bulk Text Messages

Submittal Search Results (1 Found)

Requisition...	Recruiting...	Status	Updated ...	test	Years Exp...	Eligibility t...	test
Business Unit : Name: 50F -Mixed Use

2. Candidate's Information

- Under 'Overview' Tab, copy the Candidate's Email Address under Contact Info, and the Recruiter's Name

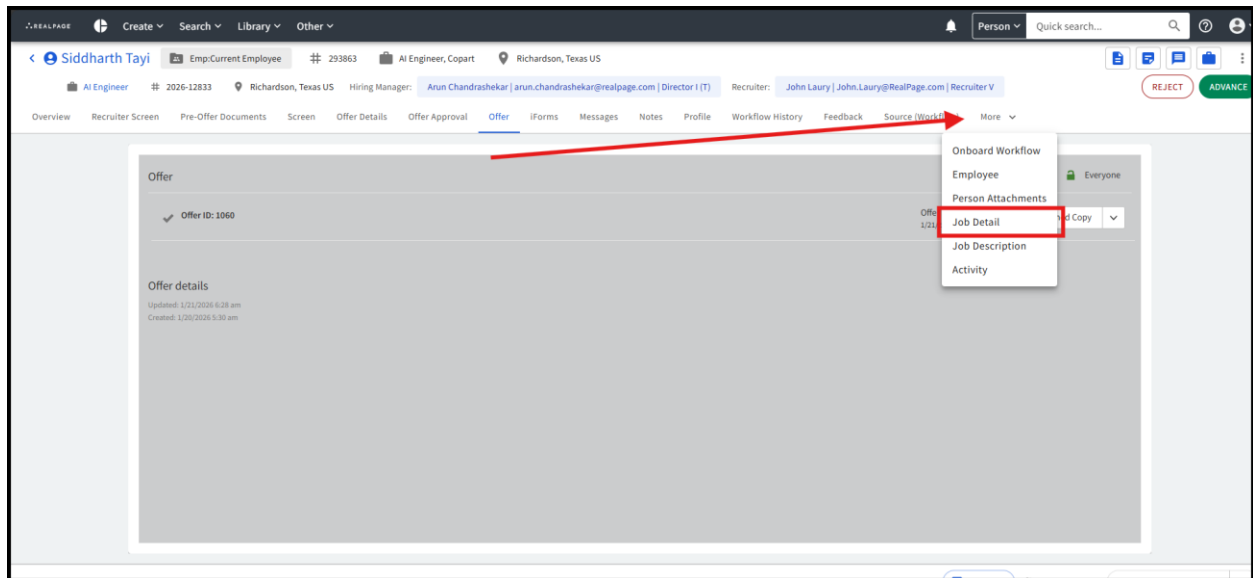

- Go to 'Offer' Tab, download or view the Signed Offer Letter.

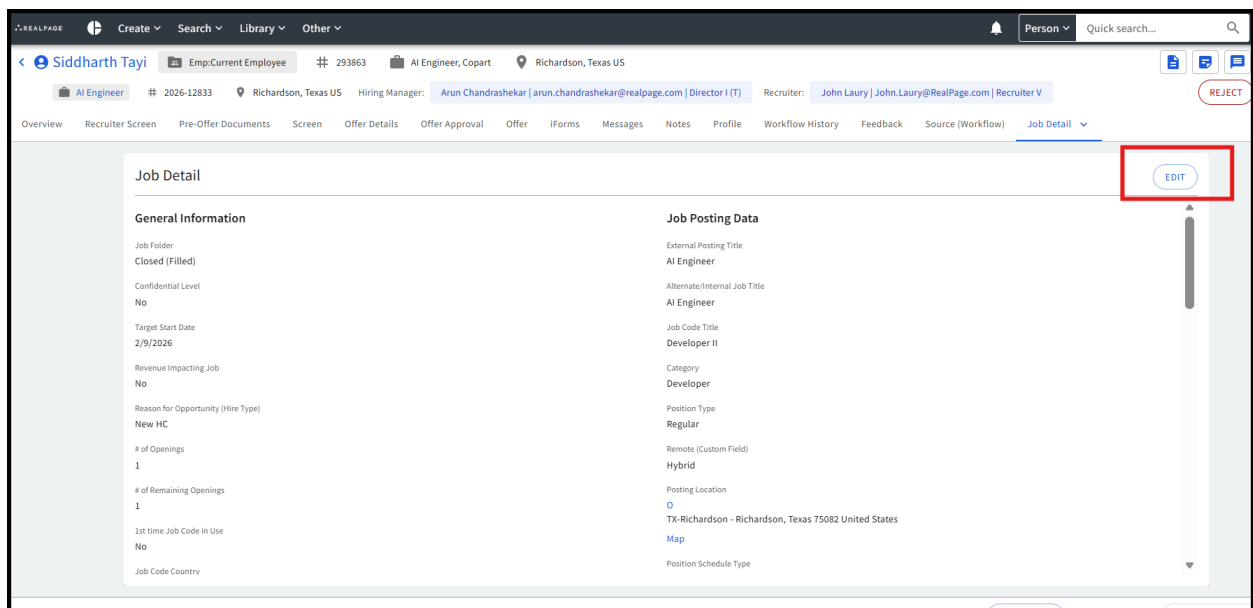

- Offer Letter is the sole basis for checking the candidate's information and keeping the **US New Hire Tracker** up to date, information such as:
 - Job Title
 - Reporting To
 - Start Date
 - Orientation Date
 - Location (*City and State*)
 - Annual Salary

3. Job Details Verification

- From Offer Tab, go to 'More' option, choose **Job Detail**

- Click 'Edit' Button

- Start checking candidate's information such as:
 - Reason for Opportunity (Hire Type)
 - Salary Grade
 - Justification
 - Business Unit
 - Department
 - Team
 - Cost Center
 - Cost Center for Background Check – same with Cost Center

Cancel Add 11 task(s)

When using the "Add Task" process, you still have the opportunity to review and confirm the iForms that will be sent to the candidate based on the selected New Hire Category.

From this section, you can:

- Add** additional iForms if needed.
- Delete** any iForms that were included by default but should not be sent to the candidate.

This step ensures that only the appropriate onboarding forms are assigned, helping maintain accuracy and relevance in the onboarding process.

- Click 'Send' Button to deliver the onboarding email to the candidate.

To resend the Welcome Letter:

- Navigate to the Onboard Workflow, select the appropriate New Hire Category, click Email, update the email address located at the top of their profile if necessary, then click Send.

Notes:

- You can also monitor the background check by locating the Job Requisition, selecting the candidate from the Candidate tab, and navigating to the Screen tab. However, using the widget is recommended for quicker access.
- Resending email notifications related to background checks can only be done through the Sterling platform.
- Kindly inform the Talent Acquisition team regarding the background check results for their review and next steps.

Important: In cases where the new hire does not show up or the offer is canceled due to issues with the background check, **Talent Acquisition Manager will reopen the job requisition** to proceed with sourcing a replacement.

7. Monitor Onboarding Progress

- Navigate to the “Start Onboarding” folder and click on the candidate’s name.
- Select Onboard Workflow to view the candidate’s onboarding progress.
- This section will show which iForms are still pending and which have already been completed.

Name	Type	Assigned To : Full Name: First Last	Due Date	Status
Sterling I-9 Guide	General	Test Trixia Marentes	6/25/2025	Completed

Illinois NDA, Non-compete & Work Assignment (E10 & \$45k or less)	Form	Test Trixia Marentes	6/25/2025	Completed
Illinois NDA & Work Assignment (E10 & \$45k or Less)	Form	Test Trixia Marentes	6/25/2025	Completed
Code of Business Ethics	Form	Test Trixia Marentes	6/23/2025	Completed

- Green - Task completed
- Orange- Task in Progress
- Gray – Task not started

Note: If additional iForms need to be sent after onboarding has started, click **Add Task**, then select the required iForms from the library. If an iForm was sent by mistake, you can also **delete** it from the workflow.

8. Send to HRIS for Hire Processing

- Once all onboarding tasks are completed, finalize the hire by:
 - ✓ Reviewing the PII form to ensure the preferred name is formatted correctly (e.g., not “N/A,” no odd characters, not in all caps, and includes both first and last names) before sending it to HCM.
 - ✓ Clicking **Advance > “Hired – Sent to HRIS.”** This action will automatically create the new hire’s UKG profile in the system.

Notes:

- If the **start date has changed** and the candidate has already been sent to HRIS, notify the **HRIS team** to update the start date in UKG.
- If onboarding is still **in progress**, **Talent Services** should update the start date directly in the system under employee tab before sending to HRIS.

New Hire Onboarding Process Guidelines

1. Change of Start Date

If notification is received that a new hire's start date (SD) needs to be changed, follow the process below:

a. New Hire Has Not Yet Been Processed in iCIMS

- Update the Start Date in the Employee tab within iCIMS.

b. New Hire Has Already Been Moved to "Hired – Sent to HRIS" in iCIMS

- Send an email notification to the following teams:
 - HRIS (HRIS@RealPage.com)
 - IT Onboarding (it-onboarding-us@realpage.com)
 - New Hire Onboarding (NewHireOnboarding@RealPage.com)
- Copy the following individuals:
 - Recruiter
 - Jennifer Honea

Include the employee's name, requisition number, current start date, and revised start date in the email.

Purpose

To ensure that any changes to a new hire's start date after they have been pushed to **Hired / Sent to HRIS** are properly communicated, updated, and accurately reflected in **UKG** prior to the employee's start date.

2. Background Check Monitoring

a. Background Check Review

Review the status of background checks seven (7) business days prior to the employee's scheduled start date.

Example:

- Start Date: June 22
- Background Check Review Date: June 11

If the background check has not yet been completed and cleared:

1. Send an email update to:
 - Recruiter
 - Jennifer Honea
 - Hiring Manager
2. Inform them that the background check remains incomplete.
3. Recommend moving the employee's start date by one week to allow additional time for completion of the background screening process.
4. Await confirmation from the Hiring Manager and Talent Acquisition team regarding:
 - Approval to move the start date by one week, or
 - An alternative preferred start date.

3. Escalation of Background Check Results

Send background check reports to Jennifer only when there is a flag, discrepancy, or issue that requires Legal review. No report is required if the background check is completed and cleared without issues.

4. UKG Profile Review

Once the employee's UKG profile has been created, verify the following information:

a. Work Email Address

- Confirm that the employee's RealPage email address has been generated.
- If the work email address is not available one week prior to the employee's start date, contact the SailPoint Support team at SailpointSupport@realpage.com.

The SailPoint team manages the automated provisioning process that moves employees from UKG to Active Directory (AD) and creates their RealPage accounts and email addresses.

Indicators that SailPoint troubleshooting may be required:

- No RealPage email address appears in UKG.
- The employee cannot be located in Microsoft Teams.
- Other onboarding accounts have not been provisioned.

b. Onboarding Information Review

At least one week prior to the employee's start date, verify the following information in UKG:

- Work email address
- Personal email address (if applicable)
- Employee profile details
- Manager assignment
- Department information
- Cost center information
- Any other onboarding-related data required for Day 1 readiness

Escalate any discrepancies immediately to the appropriate support team.

Confidential Hire Process

Overview

Confidential hires are not processed in RecruitIQ.

When a confidential hire request is received from the Talent Acquisition (TA) team, Talent Services must coordinate directly with TA regarding the onboarding process and required next steps.

Process Guidelines

1. Confirm Onboarding Method

Coordinate with the TA team to determine how the onboarding paperwork will be completed:

- Through **RecruitIQ**
- Through DocuSign

This must be confirmed before initiating any onboarding activity.

2. Coordinate UKG Profile Creation with HRIS

Work with the TA team to determine the appropriate timing for notifying HRIS regarding the creation of the confidential hire's UKG profile.

Talent Services must ensure that:

- The onboarding requirements are aligned prior to submission to HRIS
- Sensitive information is handled appropriately due to the confidential nature of the hire

3. Required Details for HRIS Submission

When submitting details to HRIS, complete and attach the required Excel tracking file/template. (https://realpage-my.sharepoint.com/:x/r/personal/trixiamarie_marentes_realpage_com/_layouts/15/Doc.aspx?sourcedoc=%7B7AD0832E-A035-4F77-96B6-4A71B9C23C3D%7D&file=US%20New%20Hire%20Import%20Template%20%202-2026%201.xlsx&action=default&mobileredirect=true)

Important Notes

- Confidential hires must be handled with limited visibility and discretion.
- Do not process confidential hires through the standard RecruitIQ onboarding workflow unless specifically instructed by TA.
- Maintain close coordination with TA and HRIS throughout the onboarding process.
