

Contractor Onboarding Process

1. The Hiring Manager (HM) sends the completed Onboarding Request Form to the Contingent Worker mailbox.

Please Read the Notes on this Form for Help. Please indicate in equipment section if contractors needed equipment

Important info:

1. It is the Manager's responsibility to get the Purchase Order, ensure the background is clear, Terminate your Contractor/Consultant, and to let us know if you extend your Contractor/Consultant.
2. All paperwork should be submitted 2 weeks prior to start date
3. PO's are handled by your Coupa Admin/Procurement, Agreements are Legal, and reach out to ContingentWorker@realpage.com for all inquiries. Please CC your Recruiting Partner, HRBP and Operations Specialist/Admin.
4. Equipment is a required field and manager is required to select one of the selection

Before onboarding any contractor, ensure that a Purchase Order (PO) has been provided. For U.S.-based contractors, verify that a background check has been completed. If no background check is in place, initiate the background check in Sterling and wait for the results before proceeding with onboarding.

2. Send the onboarding (OB) form to the contractor through DocuSign using the HRSC login or send it from the CW mailbox using [this](#) email template.

Use the PowerForm link below for bulk onboarding requests. This is more efficient than DocuSign, as it eliminates the need to manually enter each contractor's name and email address:

<https://na2.docusign.net/Member/PowerFormSigning.aspx?PowerFormId=d6587f0a-5b0d-40c8-b8a5-691777206413&env=na2&acct=fd8275f7-664a-46d4-9490-fed753571c66&v=2>

3. For contractors under the **Non-Payroll company** (e.g., US, Outside COC, and FACT), select **Add Employee (Hire/Rehire)** under My Employees in Administration.
4. For contractors under **PH and IND**, select **Add US/Canadian/International Employee** under My Employees in Administration.

Things I can do

For this page

3 Add Employee (Hire/Rehire)

4 Add US/Canadian/International Employee

Add Global Employee

5. A new window will open for ID verification. Confirm the ID number, then select the appropriate company from the dropdown menu:

- US, Outside COC, and FACT: Non-Payroll
- PH: RP PH
- IND: RP IND

The table below outlines the similarities and key differences among the three contingent worker (CW) onboarding types.

Type	ID Number	DOB	Gender	Company	OB Form
CW (COC)	ID from OB Form	From OB Form	From OB Form	US = non-payroll PH = RP PH IND = RP IND	Required
CW (Outside COC)	Dummy SSN (e.g., 999-99-9999)	From OB Form	From OB Form	Non-Payroll	Required
CW FACT	Dummy SSN (e.g., 999-99-9999)	Dummy DOB	Based on name or Unknown	Non-Payroll	Not Required

STEP BY STEP PROCESS GUIDE

A. Non-Payroll (US and Outside COC)

B. Non – Payroll FACT

C. RP PH and IND

1. In the **Start tab**, select Non-Payroll and complete the required fields. Use a dummy SSN (999-99-9999) for contractors outside COC; use the SSN from the OB form for U.S. contractors.

The screenshot shows the 'Hire an Employee' form in Google Chrome. The browser address bar shows the URL: `n21.ultipro.com/pages/EDIT/eeHireStart.aspx?USParams=PK=EEADMIMenuID=424!ParentRerId=425!subDivR...`. The form has a sidebar on the left with tabs: **Start**, Personal, Dates, Jobs/Payroll, Direct Deposit, PTO/Leave Balances, and Summary. The **Start** tab is selected. The form is titled 'Hire an Employee' and 'Non payroll'. The 'Information' section includes a message: 'The SSN 999-99-9999 may be assigned to other employees. If you are trying to rehire a terminated employee, please update the employee's record with a unique SSN, and then proceed with the rehire.' Below this, there are fields for 'Company' (Non-payroll), 'Operating country' (United States), 'SSN' (999-99-9999), and 'Confirm SSN' (999-99-9999). The 'Employee Information' section includes fields for 'Prefix', 'First name' (Alexandru), 'Preferred name' (Alexandru), 'Middle name', 'Last name' (Balosache), 'Former last', 'Suffix', 'Employee number' (To be assigned), and 'Time clock'. Red checkmarks are visible next to the 'Company', 'Operating country', 'SSN', 'Confirm SSN', 'First name', 'Preferred name', 'Last name', and 'Employee number' fields.

2. In the **Personal tab**, use **Quick Address Search for U.S. addresses**. For addresses outside the U.S., select Override Smart Tax Address, enter the address manually, and choose **Foreign National** as the State/Province. Complete all required fields, including **Alternate Email Address, Date of Birth, Gender, PO Number, and End Date**.

Tip: Most business units require a PO. If no PO is provided, confirm with the Hiring Manager (HM) whether a PO is required, as some business units (e.g., WhiteSky) may not require one.

Country	New	United States

A. Non-Payroll (US and Outside COC)

B. Non – Payroll FACT

C. RP PH and IND

FACT requests are typically submitted by Callie Rivera. Once the spreadsheet is received, proceed with onboarding in UKG using the default details below. Complete the remaining onboarding steps following the standard Non-Payroll (NP) onboarding process and populate all required fields.

Field	Value
Company	Non-Payroll
SSN	999-99-9999 or 000-00-0000
Address	2201 Lakeside Blvd, Richardson, TX 75082, USA
DOB	01/01/1990
Gender	Use Unknown or determine based on the name
Supervisor	Callie Rivera
Job	CONFACT
Alternate Job Title	FACT Consultant
Location	Use the location provided in the spreadsheet

A. Non-Payroll (US and Outside COC)

B. Non – Payroll FACT

C. RP PH and IND

1. Follow the same onboarding process as the Non-Payroll (NP) process above. The only difference is the company selected during onboarding:
 - **PH:** RP PH
 - **IND:** RP IND
2. **All other steps remain the same.** Refer to the completed **OB Form** for personal information and the **Contractor Form** for job details. Follow the NP process for all remaining fields and onboarding steps.

Common Issue: Contractor Cannot Be Found in Salesforce

If the contractor was recently onboarded:

- Advise the Hiring Manager to wait at least 4 hours for the integration to complete.
- Check the contractor's UKG profile to confirm whether an RP email address has been generated.
- If an RP email address is available, search for the contractor in Salesforce.

If the contractor is still not found in Salesforce:

- Contact User Access (UserAccess@RealPage.com) and the SailPoint Support Team (SailPointSupport@RealPage.com) for assistance.

If more than 24 hours have passed since onboarding:

- Escalate the issue to HRIS, User Access, and the SailPoint Support Team for further investigation.

After creating the contingent worker (CW) profile in UKG, notify the Hiring Manager using the email template below. Inform them that the profile has been created and that the CW will receive a separate email from SFtoADIntegration@realpage.com with further instructions and next steps. The email template below may be customized as needed. However, ensure that all key details and reminders are included.

Tip: To find the HR EEID, navigate to My Team > My Employees, switch your role to Content Manager, then search for the employee using their first or last name. The HR EEID will be displayed in the employee profile.

Hi,

The contractor listed below has been successfully entered into the system. To request any required access (e.g., computer, software, VPN), please submit a **New Hire (Manager) Onboarding ticket** in **Salesforce**.

Detailed instructions for submitting the ticket will be sent directly to the hiring manager from noreply@iam.realpage.com.

For email login assistance, contractors may contact **Tech Support at 972-820-HELP** once their **Active Directory (AD)** account has been provisioned.

Name	EEID
Noah Alex	0931446

All contractors are required to complete mandatory **New Hire Training** in **RealPage University (RPU)**. Access will be granted within 48 hours of AD enablement. Assigned coursework must be completed by the specified deadlines.

Reminders:

- To terminate a contractor/consultant, email ContingentWorker@realpage.com.
- For conversion to full-time, coordinate with your **Recruiter** or the **Contingent Worker Team**.
- Managers will receive contractor expiration notifications prior to the contract end date. ***If no action is taken in response to these notifications and the contractor expires in the system, it will be the manager's responsibility to submit a request for contractor reactivation.***

Regards,
Contingent Worker Team
